

Workplace Health and Safety Awareness

Safety in the workplace is a vital issue for every business and can't just be taken for granted.

This program details employee responsibilities under WHS laws, what responsibilities employers and other people have at the workplace and what happens if anyone fails to comply with their responsibilities.

Employees will see the importance of co-operation with their employer and how to make their workplace safer by evaluating hazards, assessing the risk and eliminating or minimising hazards.

Content by: Gilbert + Tobin Lawyers

Designed for: Managers, employees and contractors

Duration: Approximately 30 minutes

Recommended frequency: Every 2 years

Mobile ready: Yes, optimised for desktop and mobile devices

Content customisation: Client content can be included
